Quotes About Dating

Quote 1: Fixers

Avoid fixer-uppers and projects. Your job isn't to save or fix your partner.

You two are supposed to enjoy one another and build each other up together.

Quote 2: Equally Yoked

Don't date down. Date your equivalent or someone who can challenge you to grow and better yourself without codependency involved.

Quote 3: Authenticity

Don't hide who you are, or a person won't ever be able to love, appreciate, and know the real you.

Building an authentic relationship requires two authentic people.

Quote 4: Rushing

There should never be a rush on physical intimacy.

First, establish a mental and emotional connection and see if it makes sense to go further from there.

Physical should always come last; rushing this part produces more shallow relationship outcomes.

Quote 5: Know Thyself

Before you can know someone else within a relationship, you must know yourself.

Quote 6: Alone

Learn how to be alone. Learn how to live alone.

Learn how to eat alone. Learn how to travel alone.

Learn how to be alone.

Quote 7: Chasing

Don't over-pursue a person. Allow breathing room.
Allow space. Allow for a natural rhythm between
two people.

Quote 8: Boundaries

Implement boundaries early and often. Set the tone for the relationship going forward.

Quote 9: The Best

If they don't want the best for you, walk away immediately.

Quote 10: Standards

There is no such thing as a "high" or "low" standard.

A standard is simply the baseline a person has set of what they will and won't accept.

The right person won't think your standards are too high.

Quote 11: Identity

Maintain your identity early on and throughout your relationship. It's easy to lose your identity and have a desire to spend copious amounts of time together.

Remember to maintain balance. Remember your goals. Remember your priorities. Remember your family. Remember your friends.

Quote 12: Health

A person who does not prioritize their health, body, life, and care will likely struggle to take care of you (in the best capacity) and any future children you might bring into the picture.

Quote 13: Alignment

Align on core values before making any sudden moves. If your values don't align, you don't need to proceed with a person. It's bad business if you're seeking something long-term.

Have the challenging discussions early and often.
Don't wait.

Quote 14: Observe

As the predator observes its prey, do the same.

People reveal everything you need to know over time. Sit back and wait. Don't make any sudden or significant decisions before you've observed long enough. There is no need to rush.

Quote 15: TV

Most couples spend time together watching television; this is the lowest form of intimacy.

Quote 16: Conflict

If two can master and learn how to effectively handle conflict, they'll make it mighty far in their relationship.

Quote 17: Us

17

It's not you and me. It's us and we.

- Jay Shetty

Quote 18: Learn

If you're not learning together, you're not growing together. When people don't grow together, they grow apart.

Quote 19: Fresh

Engage in egoless activities that neither of you has engaged in to keep things fresh, new, exciting, and non-competitive.

Quote 20: Effort

When seeking a partner, invest considerable effort; this is one of the most critical relationships in your life. Choose wisely. Don't take the decision lightly. Do your due diligence.
